

10TH WORLD WATER FORUM

18-25 MAY 2024 | BALI, INDONESIA

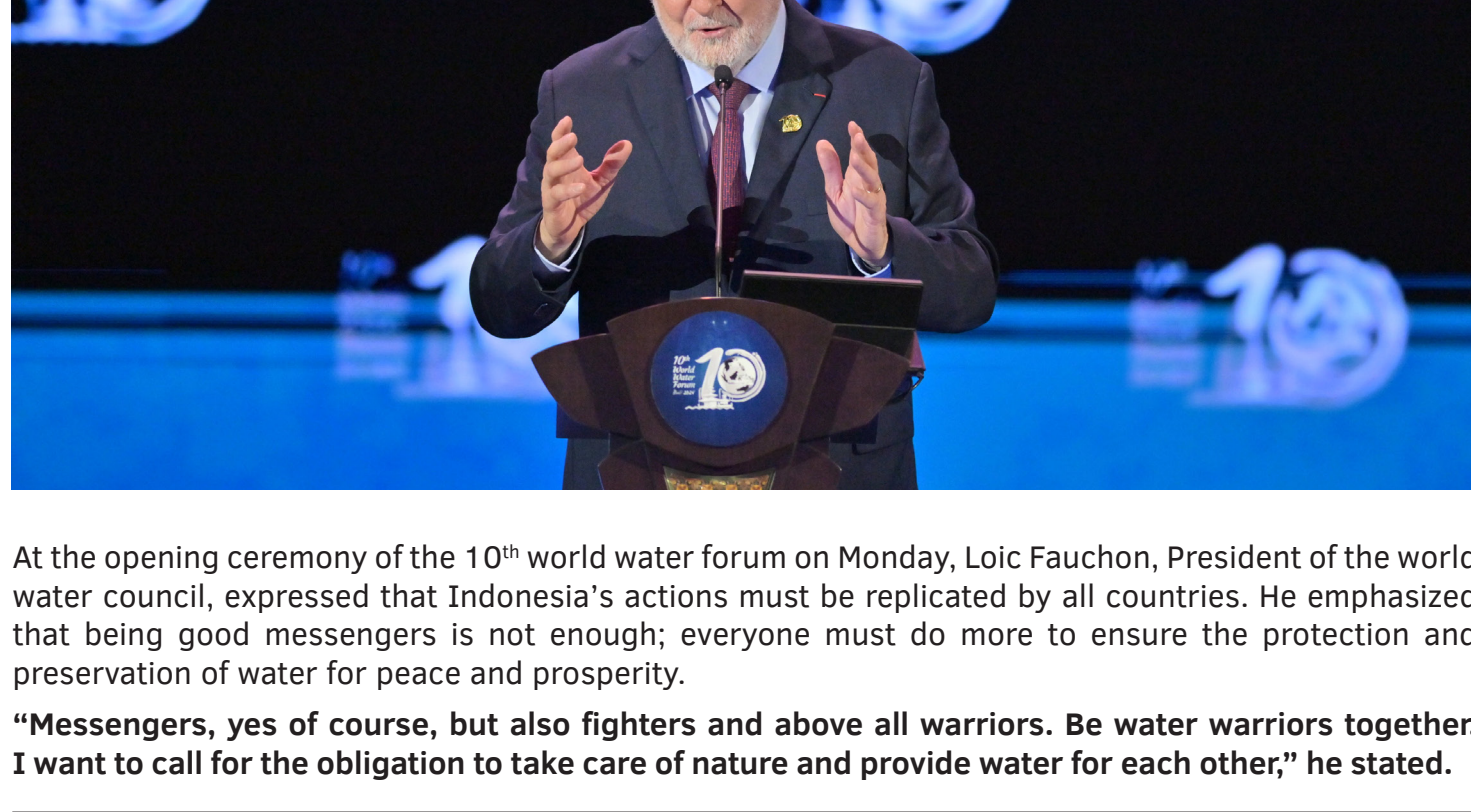

HIGHLIGHTS OF THE OPENING DAY

PRESIDENT JOKO WIDODO OPENS THE 10TH WORLD WATER FORUM

President Joko Widodo officially opens the 10th World Water Forum at the Bali International Convention Centre (BICC) on Monday, 20th May 2024. He welcomed world leaders to Bali and emphasized the forum as a platform to revitalize real action and collective commitment to water by sharing knowledge and promoting innovation.

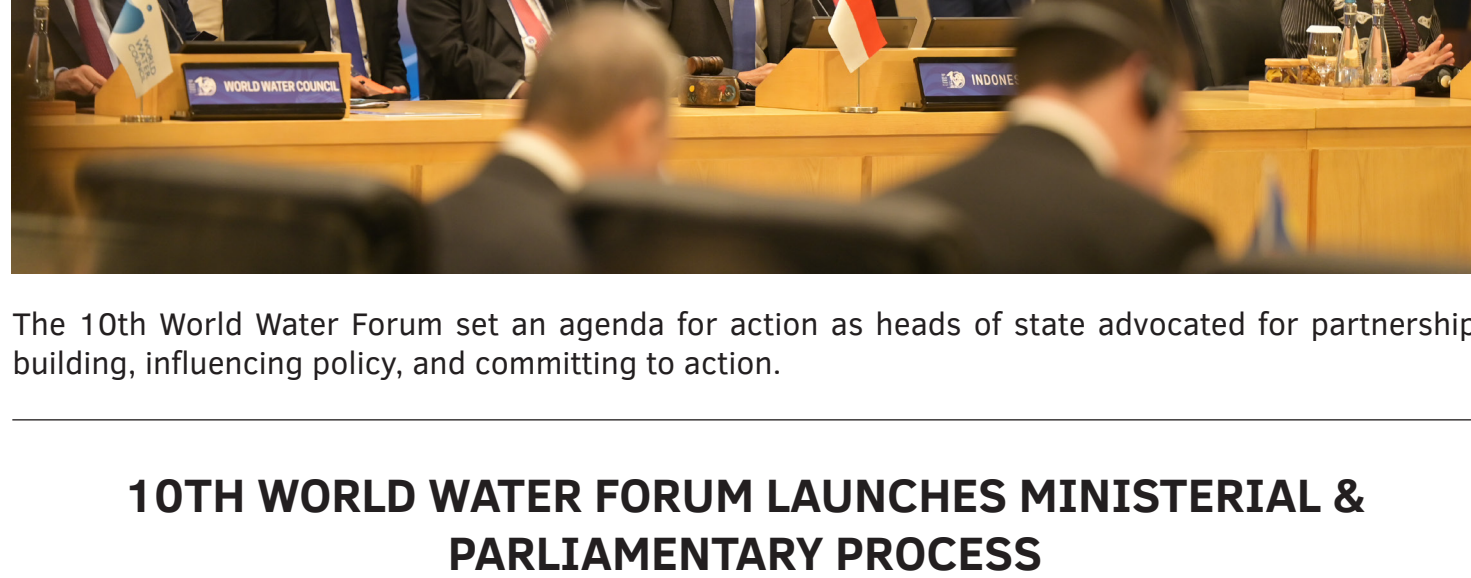

WORLD WATER COUNCIL PRESIDENT CALLS ON EVERYONE TO BECOME "WORLD WATER WARRIORS"

At the opening ceremony of the 10th World Water Forum on Monday, Loic Fauchon, President of the World Water Council, expressed that Indonesia's actions must be replicated by all countries. He emphasized that being good messengers is not enough; everyone must do more to ensure the protection and preservation of water for peace and prosperity.

"Messengers, yes of course, but also fighters and above all warriors. Be water warriors together. I want to call for the obligation to take care of nature and provide water for each other," he stated.

THE LEADERS MEETING

The 10th World Water Forum set an agenda for action as heads of state advocated for partnership building, influencing policy, and committing to action.

10TH WORLD WATER FORUM LAUNCHES MINISTERIAL & PARLIAMENTARY PROCESS

The outcomes through ministerial decision-makers will help to build capacity, foster collaboration, and promote effective water governance at national and international levels.

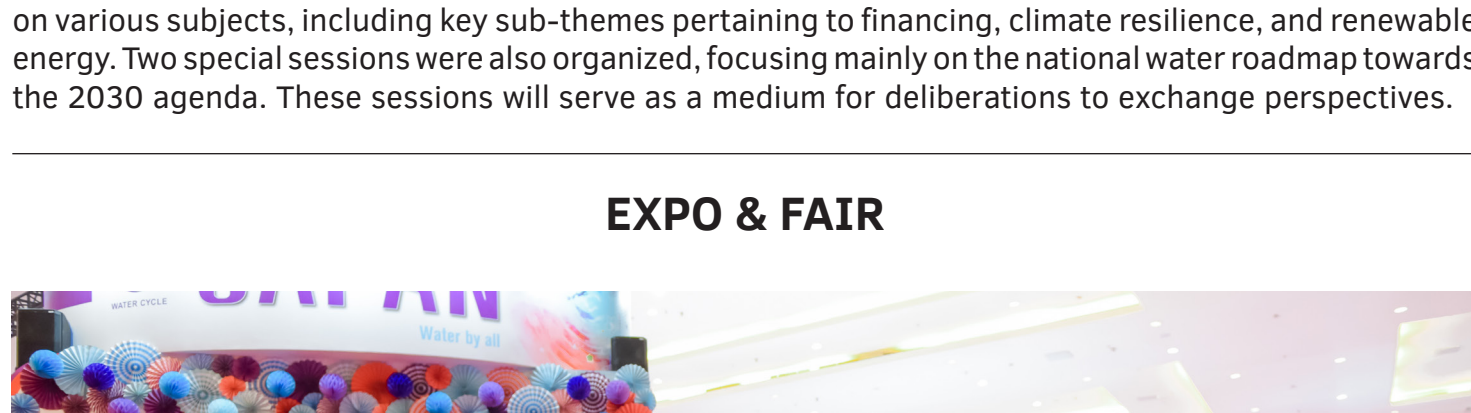

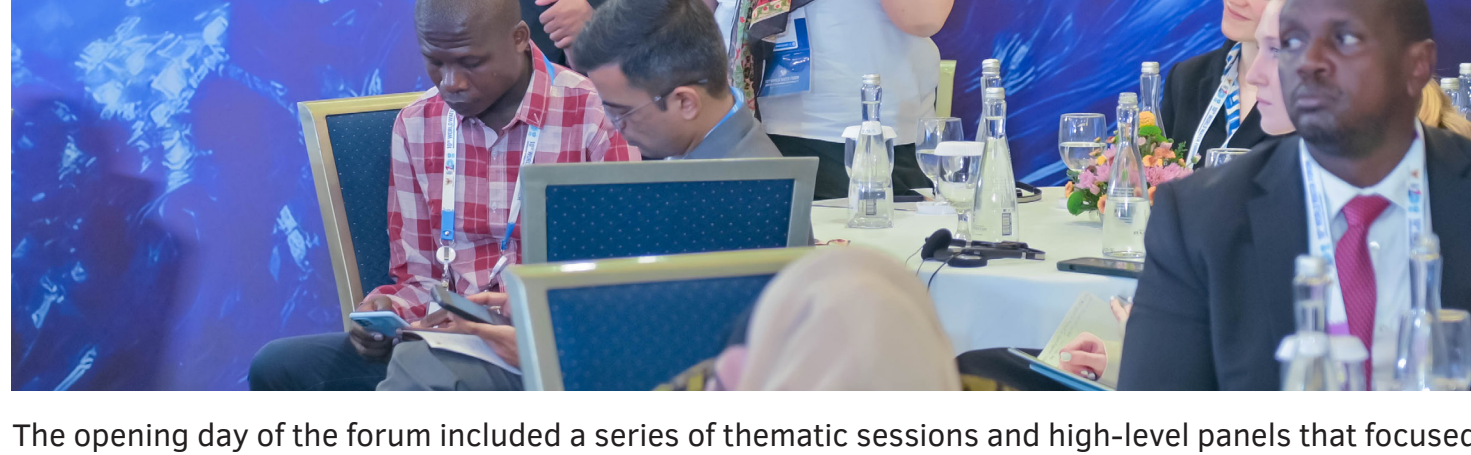

Bali opened its doors to parliamentarians who will share their best practices and policy suggestions, including experiences in producing legal frameworks for water and sanitation management, prioritizing water in budget discussions, and networking and partnership building.

DISCUSSIONS & DELIBERATIONS

The opening day of the forum included a series of thematic sessions and high-level panels that focused on various subjects, including key sub-themes pertaining to financing, climate resilience, and renewable energy. Two special sessions were also organized, focusing mainly on the national water roadmap towards the 2030 agenda. These sessions will serve as a medium for deliberations to exchange perspectives.

EXPO & FAIR

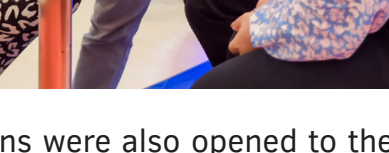

The organization and country pavilions were also opened to the public welcoming more than 10,000 participants to visit and network. The Expo provides an opportunity for researchers, scientists, and stakeholders to interact, build networks, and form partnerships to advance strategies and innovation.

LEADER'S VISIT TO TAHURA

After participating in the 10th World Water Forum High Level Conference at the Bali International Convention Center, President Joko Widodo invited heads of state and their envoys to visit the Ngurah Rai Grand Forest Park (Tahura) in Bali on May 20, 2024. Tahura, a mangrove forest rehabilitation and conservation area, exemplifies the Balinese principle of Tri Hita Karana, promoting harmony between God, humans, and nature. The facility, equipped with solar panels from the Cirata project, supports mangrove conservation. President Jokowi highlighted the carbon-absorbing potential of mangroves and demonstrated seedling care, underscoring the importance of global cooperation for environmental sustainability.

Come meet us and know what went behind the planning of the 10th World Water Forum.
