

PARALLEL EVENT PROGRAM DESCRIPTION FORM

10TH WORLD WATER FORUM

This Session Description is for the specified program of the side event. Please complete this form no later than 27th of April 2024.

**The session description 1 (online form) is separately requested for the session coordinators to deliver a concise session outline with the contact info and the logistical requests.*

Session Title:

SE59 : Sharing Session for Water Sector Transformation to Achieve Universal Access of Water Services

Parallel Event Coordinators (Name, Position, Organization, email, mobile number):

Session coordinator and moderator:

Session coordinator:

Coordinator 1

Name: Ir. Anang Muchlis, Sp. PSDA

Position: Director of Water Supply

Organization: Directorate General of Human Settlements, Ministry of Public Works and Housing

Email: rentekpamdjck@gmail.com

Mobile number: 081226751965

Coordinator 2

Name: Dades Prinandes, S.T., M.Si.

Position: Head of Water Supply System Technical Planning Subdirectorate, Directorate of Water Supply

Organization: Directorate General of Human Settlements, Ministry of Public Works and Housing

Email: dades.prinandes@pu.go.id

Mobile number: 081226621100

Moderator:

Name: Irma Magdalena

Position: Senior Water Supply and Sanitation Specialist

Organization: World Bank

Mobile number: 08128579063

Session Description including objectives and expected outcomes (500 words maximum):

Indonesia Emas in 2045 sets forth the objective of achieving universal access to drinking water via a piped network, aiming to attain a 100% feasible network coverage while addressing requirements pertaining to quantity, quality, continuity, affordability, and sustainability to be able to fulfil human basic rights and needs for drinking water. Within this target, the government is responsible for ensuring adequate and equitable drinking water services. Currently, the national water supply network coverage remains low at 19.76% whereas the performance of PDAM is also challenging due to a series of issues and reasons. One of which is the Water Tariff where it cannot ensure the sustainability of the operation since the tariff is not able to recover the operation costs. On the governance and policy sides, the water sector faces marginal performances of PDAMs with poor regional/local government's commitments to supporting sufficient resources (and funding) to develop their piped networks from the upstream and downstream sides.

Through a sharing session in 10th WWF, we can learn and explore other countries' experiences in providing good quality water supply services over establishing multi-municipal cooperation and the lesson learned from its implementation also to understand further the pathway, stages and required regulation and policies for a better water sector.

For this sharing session we expect to invite water sector and regulator institution from various country to share their experiences in transforming water sector especially in policy, institutional, dan regulation aspect. Stakeholders of water sector in Indonesia will also be invited, such as Ministry of Home Affairs, Ministry of National Development Planning, PERPAMSI, etc. As an outcome, there will be a study regarding how to transform the water sector in Indonesia referring to other countries' experiences, including a road map to do the transformation so the target of 100% water services will be achieved.

Detailed Session plan :

ESTIMATED TIMING	ITEM DESCRIPTION / ROLE	SPEAKERS	SPEAKERS STATUS (OK OR TBC)
180 minutes	Speakers and contributors:		
	1. Aguas de Portugal Group		OK
	2. ESRAAR (regulator in Portugal)		TBC
	3. Sao Paulo State Water Company's (SABESP)		TBC
	Moderator:		
	1. Senior Water Supply and Sanitation Specialist		OK
	Stakeholders		
	1. Ministry of National Development Planning (Bappenas)		
	2. Ministry of Home Affairs (Kementerian Dalam Negeri)		
	3. Ministry of Public Works and Housing		
	4. PERPAMSI		

Additional information (logistics and other necessary information):

Logistic needs:

1. Interpreter
2. Audio
3. Video
4. Recording
