noorzni@pop.iwk.com.my, +60122892532

Moderator: Ahmad Fahame Yusoff, Manager, ASTRICE, Indah Water Konsortium Sdn. Bhd.,
fahamey@pop.iwk.com.my; +601110575413

Session Description including objectives and expected outcomes (500 words maximum):

The session will describe a comprehensive exploration of IWK's journey towards sustainable sewerage services, innovation initiatives, policy evolution, and community engagement to address pressing environmental and public health challenges. This presentation delves into the multifaceted approach adopted by IWK, encompassing technological advancements, regulatory frameworks, and stakeholder collaborations, towards a resilient and eco-friendly sewerage infrastructure.

The objectives are to trace, uncover, examine and assess the Malaysia's sewerage policies and regulatory frameworks to facilitate the sewerage operations, the technologies employed in Malaysia wastewater treatment plant, water reclamation initiatives, public awareness on sustainable sewerage initiatives, challenges and opportunities of IWK's journey towards environmental sustainability of sewerage services.

As for the expected outcomes, the sharing session is to offer a compelling account of Malaysia's quest for environmental sustainability and public health protection through the transformation of its sewerage services. Through the platform, it is also expected for the audience to gain valuable insights into the policies, technologies, and partnerships driving IWK's efforts to build a greener, healthier, and more resilient nation.

IWK will also make use of the platform to highlight its experience in sharing knowledge as the mentor through the on-going capacity building project under EU WOP UN Habitat with Perumda PALD Banjarmasin, Indonesia as the beneficiary partner.

Detailed Session plan : *F/M indicates Female or Male
