Dr. Bernadia Irawati Tjandradewi, Secretary General, UCLG ASPAC

Session Description including objectives and expected outcomes (500 words maximum):

The main objective of the International Workshop on Smart and Resilient City is to provide technical assistance and support to urban policymakers, planners, and city officials, particularly from developing countries including the least developing countries (LDCs), landlocked countries, and small island developing states (SIDS) to enhance their capacity in better addressing SDG 11 (Make Cities and Human Settlements Inclusive, Safe, Resilient and Sustainable) through smart city solutions and measures. The workshop emphasizes showcasing exemplary practices and case studies especially related to the implementation of smart water management and disaster risk reduction technologies and solutions. It is expected that approximately 50 participants, including governors, mayors, policymakers, planners, and officials from local and regional governments from Asia and the Pacific will benefit from the training workshop.
