**Session Description including objectives and expected outcomes (500 words maximum):**

financing transboundary cooperation and building the capacities of African basin organizations is one of the major challenges and raison d'être of the African Network of Basin Organizations, which was established in 2002 to promote transboundary cooperation and build peace between countries.

As Africa stands at a critical crossroads, ANBO must find answers to the demand for financing water governance in Africa.

This session attempts to provide solutions to this cross-cutting issue.
