

Presidential Instruction No.1 of 2024 regarding The Acceleration of Water Supply and Domestic Wastewater Management Services.

Section 1: General Information	
Summary	An instruction of the President of The Republic of Indonesia to ministers, government internal auditors, governors, and regents/mayors to take coordinated and integrated actions in accelerating the provision of Water Supply and domestic wastewater services
Proponent Name(s)	Indonesia
Proponent Type	National Governments
Primary Contact Name	Ir. Diana Kusumastuti, M.T.; Ervan Maksum, S.T., M.Sc.
Primary Contact Details	ditjenciptakarya20@gmail.com
Additional Contact Details	ervan.maksum@bappenas.go.id
Region	Asia Pacific

Section 2: Commitment	
Linkages to SDG 6	Safe and Affordable Drinking Water, Improve Water Quality, Wastewater Treatment and Safe Reuse, Increase Water-Use Efficiency and Ensure Freshwater Supplies, Protect and Restore Water-Related Ecosystems
Target	<ol style="list-style-type: none"> 1. Water Supply <ul style="list-style-type: none"> - 3 million household connections. - 3.000 litres/second of raw water supply. 2. Domestic Wastewater Services <ul style="list-style-type: none"> - Integrated Domestic Wastewater Treatment System (SPALD-T) subsystem service of 308.404 households. - Septic tank and provision of faecal sludge transport facilities for 826.093 households.
Linkages to other SDG	No Poverty, Good Health And Well-Being, Responsible Consumption And Production, Climate Action, Life Below Water

Section 3: Actions and Outcomes to Achieve Targets	
Relevant Sub-Theme	Water Security and Prosperity
Actions and Outcomes	<p>Actions:</p> <ul style="list-style-type: none"> • Expansion of water distribution on the Water Supply System (WSS) through the construction of Household Connections, including the construction of the Main Distribution Network, Secondary

	<p>Distribution Network, and Service Distribution Network, which can be supported by complementary equipment and rehabilitation of water distribution activities. And also the provision of bulk water through optimizing existing bulk water infrastructure to utilize the idle capacity of the Water Supply System (WSS)</p> <ul style="list-style-type: none"> • Provision of domestic wastewater management services through the expansion of services for the Integrated Domestic Wastewater Management System (SPALD-T) and the expansion of services for the Local Domestic Wastewater Management System (SPALD-S) from the existing Fecal Sludge Treatment Plant (IPLT); • Plan and provide technical and non-technical readiness, including budget readiness, maintenance, regulation, institutional, and community readiness for the acceleration activities of water supply provision and domestic wastewater management services; • Formulate sustainable policies, programs, and activities to accelerate the provision of water supply and domestic wastewater management services; • Monitor, evaluate, control, and report the implementation of activities to accelerate the provision of water supply and domestic wastewater management services; • Make efforts to resolve obstacles and barriers in implementing activities to accelerate the provision of water supply and domestic wastewater management services. <p>Outcomes:</p> <ul style="list-style-type: none"> • fulfil the basic rights of the community to increase their welfare; • improve the quality of public health related to water-borne diseases; • reduce the prevalence and prevent stunting; and • reduce the rate of groundwater extraction; • support the achievement of the 2020 – 2024 National Medium-Term Development Plan targets for water supply and sanitation (domestic wastewater); • support the achievement of the Sustainable Development Goals (SDGs), particularly goal 6th: Ensure access to water and sanitation for all. 	
Implementation Period	Start Period	1/29/2024
	End Period	12/31/2024
Financial Commitment	USD 467.000.000
