

National Sanitation Grant Program

Section 1: General Information	
Summary	National Sanitation Hibah Program is tailored to support GOI, especially local government in overseeing sanitation projects, such as building facilities and fostering hygiene education through and output-based approach. Built on the achievement and lessons learned from sAIG and HAL, KIAT support the GOI in designing and implementing the National Sanitation Hibah Program (NSHP) which is integrated into the national budget and government grant delivery system, starting in 2023.
Proponent Name(s)	Government of Indonesia and Kemitraan Indonesia-Australia untuk Infrastruktur (KIAT)
Proponent Type	International Organizations and Civil Society Organizations
Primary Contact Name	Steven Chaytor
Primary Contact Details	Steven.Chaytor@KIAT.or.id
Additional Contact Details	Benjamin.Smith@KIAT.or.id
Region	Asia Pacific

Section 2: Commitment	
Linkages to SDG 6	End Open Defecation and Provide Access to Sanitation and Hygiene, Improve Water Quality, Wastewater Treatment and Safe Reuse
Target	Increased local government investment and capacity in small scale sanitation system.
Linkages to other SDG	Sustainable Cities And Communities

Section 3: Actions and Outcomes to Achieve Targets	
Relevant Sub-Theme	Sustainable Water Finance
Actions and Outcomes	<p>Actions during 2018-2021 (through sAIG-II and HAL-2):</p> <ol style="list-style-type: none"> 1. Disbursement of output-based grants to local governments - a total of AUD116 million was disbursed to 52 local governments, 38 WWTPs and 11,356 household connections were built. 2. Technical Assistance and capacity building for local governments in sanitation infrastructure development and management, through project preparatory work assistance, preparation of Detailed Engineering Design (DED), support in drafting necessary regulations for further management, and institution building for operators. <p>Outcomes/Achievement 2018-2021:</p> <ol style="list-style-type: none"> 1. [Achievement] Improved quality of wastewater infrastructure, including WWTP, networks system and household connections. <p>> sAIG-II: By 2020, 35,172 household connections were built, and 67 WWTPs were optimized</p>

	<p>> HAL-2: By 2022, 4.059 household connections were built.</p> <p>2. [Achievement] Increased investment in the sanitation sector by GOI - MPWH through APBN budget allocation for grant and by participating local governments, through APBD budget allocation and equity transfer to wastewater operators (PD-IPAL, PDAM, BLUD, UPTD).</p> <p>3. [Achievement] Through sAIIG, increased capacity of local governments in managing sanitation infrastructure, as evidenced by 27 LGs had dedicated wastewater operators, 24 had published wastewater laws, 37 had allocated budgets for social marketing, and 46 had published Gender Action Plans (GAPs).</p> <p>Actions during 2023-2026 (through NSHP) Support GoI in program preparation and implementation (the hibah is mainstreamed to the APBN)</p> <p>Outcomes</p> <p>1. By December 2025 , Participating LGs have constructed up to 15,000 house connections complying with GOI design and quality standards.</p> <p>2. By December 2025, participating LGs have applied GEDSI responsive social marketing and promotion strategies, clean construction approaches, social safeguard processes, and climate change resilience strategies.</p> <p>3. By December 2025, GOI (CPMU/DGHS) has the capacity to provide technical advice, guidance, and recommendations to participating LGs in support of budget preparations, planning, construction, verification, and grant disbursement</p> <p>4. By December 2025, GOI has completed the required preparation (including budget allocation, LG selection, standing processes, and tools) for the continuation and expansion of NSHP implementation beyond 2025.</p>	
Implementation Period	Start Period	1/18/2018
	End Period	2/28/2026
Financial Commitment	<p>AUD 28.3 million comprises of: sAIIG AUD13.15 million Sanitation Hibah AUD 8.13 million NSHP AUD 7 million</p>
