

## Palembang City Sanitation Project (PCSP)

Section 1: General Information	
Summary	The development of city-scale Wastewater Treatment Plant (WWTP) with an ultimate capacity of 21,700 property connection in Palembang City. The project also includes support to enact relevant supporting policies and regulations so the water utility has the required procedures, plans, capacity, and resources to operate and maintain the built infrastructure and customers demonstrate willingness to pay tariffs at a level that ensures financial sustainability.
Proponent Name(s)	Indonesia and Kemitraan Indonesia-Australia untuk Infrastruktur (KIAT)
Proponent Type	International Organizations and Civil Society Organizations
Primary Contact Name	Steven Chaytor
Primary Contact Details	Steven.Chaytor@KIAT.or.id
Additional Contact Details	Benjamin.Smith@KIAT.or.id
Region	Asia Pacific

Section 2: Commitment	
Linkages to SDG 6	End Open Defecation and Provide Access to Sanitation and Hygiene, Improve Water Quality, Wastewater Treatment and Safe Reuse, Expand Water and Sanitation Support to Developing Countries, Support Local Engagement in Water and Sanitation Management
Target	Increased local government investment and capacity in building and managing sanitation infrastructure/systems.
Linkages to other SDG	Industry, Innovation And Infrastructure, Sustainable Cities And Communities

Section 3: Actions and Outcomes to Achieve Targets	
Relevant Sub-Theme	Sustainable Water Finance
Actions and Outcomes	<p>Action:</p> <ol style="list-style-type: none"> <li>1. Construction of City-scale WWTP - The Government of Australia (GOA) funded the construction of WWTP and pumping station (AUD 45 million) while the collection system and property connections is funded by the Government of Indonesia (GOI) (AUD70 million).</li> <li>2. Technical assistance and capacity development to Palembang city government to enact relevant supporting policies and regulations so that the water utility can operate and maintain the built infrastructure.</li> <li>3. Demand creation through inclusive socialisation and training to the targeted communities to promote the health, hygiene, and productivity benefits from improving sanitation (conducted by PERINTIS program - under KIAT)</li> </ol>

	<p>Outcomes:</p> <ol style="list-style-type: none"> <li>1. The Palembang City Government owns a fully functional city sewerage system that has been delivered on time, within budget and in full compliance with applicable financial management, environmental and social safeguards requirements.</li> <li>2. The institutional and management arrangements are in place to enable the ongoing operation and maintenance of financially efficient and environmentally sustainable systems.</li> <li>3. The GOI and development partners are equipped with relevant evidence about the effectiveness of the on-granting model for urban sewerage financing and delivery.</li> </ol>	
Implementation Period	Start Period	6/18/2017
	End Period	6/30/2024
Financial Commitment	AUD131 million (combination of GOA, GOI funding for construction and technical assistance)
