

Mainstreaming Nature-Positive Investments for Green, Resilient and Inclusive Recovery

Section 1: General Information	
Summary	The technical assistance is aimed to strengthen institutional capacity of Asian Development Bank's developing member countries for integrating nature into national strategic planning, development and investment decision making processes. In Indonesia, the TA collaborate with the Ministry of National Development Planning and the Ministry of Public Works and Housing of Indonesia to mainstream and upscale nature-based solutions in their strategies and projects for flood risk management.
