

Demonstration of “Clear Water Action for Sustainable Development” for Benefiting Rural Areas of Lancang-Mekong Countries

Section 1: General Information	
Summary	The project plans to select demonstration villages in Cambodia to carry out the "Clear Water from Sources" environmental governance demonstration project, the “Clear Water into each Household” drinking water safety guarantee demonstration project, and the “Clear Water for Livelihoods” sustainable development demonstration project. Specifically, by implementing reverse osmosis pure water treatment equipment, small household water purifiers, and irrigation systems for fruit trees, water resources protection and rural green development can be achieved. The project achievements will be promoted in global impact activities.
