Cooperative Framework on Integrated Water Resources Management in Small Islands

Section 1: General Information	
Proponent Name(s)	Ministry of Public Works & Housings, (MPWH) Government of Indonesia Ministry of Marine & Fisheries (MMF), Government of Indonesia Ministry of Infrastructure & Water (MIW), Government of the Netherlands International Water Resources Association (IWRA) Pacific Island Forum (PIF) Resilient and Sustainable Islands Initiative (RESI)
Proponent Type	Government and International Organizations
Primary Contact Name	Dr. Yunitta Chandra Sari, Head of National Water Resources Council Secretariat, MPWH Indonesia Mrs. Lisa Hartog, Senior Advisor International Water Affairs Climate Adaptation, MIW Netherlands Mr. Ignacio Deregibus, Deputy Executive Director, IWRA
Primary Contact Details	chandra@pu.go.id lisa.hartog@minienw.nl i.deregibus@iwra.org
Additional Contact Details	raymond_valiant@yahoo.com
Region	Caribbean, Pacific, African, Indian Ocean, Mediterranean, and South China

Section 2: Commitment	
Linkages to SDG 6	The creation of a framework for cooperation in promoting and implementing IWRM on small island states (SIS), sub-national island jurisdictions (SNIJ), and small islands within archipelagic states and delta countries where possible to secure progress within the Sustainable Development Goals (SDG) 6, specifically access to water supply, clean water, and sanitation for all.
Target	• Involvement of the indigenous people, government, politicians, society, and the business community. • Cooperation and commitment on upscaling capacity-building and technology transfer for IWRM on SIS, SNIJ, and small islands within archipelagic states and delta countries to increase the resilience against climate change and conserving the freshwater cycle.
Linkages to other SDG	Good Health and Well-Being (SDG 3)

	Sustainable Cities and Communities (SDG 11)
	Responsible Consumption (SDG 12)
	Climate Change (SDG 13)
	Life on Land (SDG 15)
	Partnerships for the Goals (SDG 17)

Section 3: Actions and Outcomes to Achieve Targets		
Relevant Sub-Theme	Sub-Theme 1, "Water Security and Prosperity" Sub-Theme 2, "Water for Humans and Nature" Sub-Theme 4, "Governance, Cooperation, and Hydro-Diplomacy" Sub-Theme 5, "Sustainable Water Finance"	
Actions and Outcomes	**Expected Outcome:** Proposal of Cooperative Framework Creation of a cooperative framework to implement IWRM in small islands including SIS, SNIJ, and small islands within archipelagic states and delta countries will include an adaptation strategy to increase resilience against climate change risks. The cooperative framework will emphasize the local capacity development, technology approach, financial instruments, inclusiveness, and local knowledge/wisdom. **Actions:** Creating International and Bilateral Agreement or Declaration The instrument should consist of international and bilateral agreement on ensuring water sustainability in small islands. This agreement may incorporate climate change actions and management of recharge area to conserve water cycle in small islands. Furthermore, it may also consist of collaboration protocol between SIS, SNIJ, and small islands within archipelagic states and delta countries SIS. Development of a Guide for Water Finance Scheme The water finance scheme guide will cover the financing procedures for IWRM implementation on small islands. This action will depend on the results and agreements of the High-Level Panel meeting.	
Implementation Period	Start Period	2024
	End Period	*2029*
Financial Commitment	Financial commitments are arranged to the sharing commitment which will be prepared after the cooperation proposal is formed. Financing for the water finance scheme will be made in accordance with the forum outcome.
